ENVIRONMENT SPECIAL EDITION:
A PHILOSOPHY 365 DAYS A YEAR.

Every year on **June the 5th**, the **World Environment Day** is celebrated.

In Allegrini, we care about the ecosystem safety. That's why we daily pledge to **offer solutions with reduced environmental impact and to invest in the latest equipment to reduce waste.**

A selection of **biodegradable raw materials** for detergents formulations.

Internationally recognized certifications, with the most green label of Europe: **the Ecolabel products range.**

ENVIRONMENT SPECIAL EDITION: A PHILOSOPHY 365 DAYS A YEAR.

New CAM line

Research and development of a **new products line** conform to environmental minimum criteria (CAM), defined in the National Action Plan on the Green Public Procurement.

Allegrini Method

- Concentrated formulas
- Dosage systems
- Dilution systems

Not just products: Allegrini method is the crown jewel of an **integrated system of solution for a plastic packaging reduction** of nearly 90%.

Allocation of a research centre with a **reactor aimed at the production of surfactants of vegetal origin.**

124 KW of energy produced every year thanks to the allocation of a **photovoltaic plant** inside the Grassobbio (BG) factory, avoiding the emission of 72.603,63 Kg of CO2 a year.

Prizes and awards for **product innovations**, eco-friendly products projects and formulas that care to human and environment.

Spread of a **sustainability culture** under the sign of the historical corporate policy that turned it, in 1962, into the first producer of biodegradable detergents in Italy.
