CARWASH & CAR CARE

NEOS ECO WAX
The new ecological vehicles wax

NEOS ECO WAX

NEOS ECO WAX is the **new completely ecological vehicle drying wax** formulated by the Allegrini Research&Development laboratories. Free of oils and silicones, Neos Eco Wax gives an extreme shine to the car bodywork, at the same level of other non-ecological professional car waxes.

How?

Thanks to the **protective film that forms on the external surfaces** and the drying flow, all drops easily run out of the bodywork.

The result is a water-repellent and extremely glossy bodywork.

Which are the advantages?

- **Ultra-polished glossy effect** - non-greasy
 - Shining **mirror effect**
- Dirt and weathering **shield effect**
 - **Optimal drying**
- It does **not grease** glasses nor brushes of the carwash station.
